with the Vital Energy of Nature

Oshadhi árlista 2025. május – Magyarország

Dr. Malte Hozzel

aromaterapeuta, az Ayus GmbH és a Provence-i „Ortho de Prouvenco” Aromaterápiás oktatási központ megalapítója

Kedves Vásárló,

Az ősi indiai védikus kultúra gyógyítói már ismerték az illóolajokat. Ők nevezték a gyógynövények birodalmát Oshadhi-nak, amelynek jelentése: „a fény hordozója”, illetve „az életerő támogatója”. Már azokban az ősi időkben is úgy gondoltak a gyógynövényekre, mint intelligenciát hordozó lényekre, melyek a napenergiát felhasználva különböző átalakulásokat tudnak elindítani. Ezt az elképzelést könnyen alátámaszthatjuk, ha a fotoszintézis folyamatára, vagy az ezekből a növényekből kinyert olajokra gondolunk. Ezek az illóolajok olyan energiatöltettel rendelkeznek, melyek sokrétűen segítik az emberi szervezetet.

A katalógusban található illóolajok nagy része vadon élő vagy biogazdálkodásokban termesztett növényekből származik, ahol nem használnak műtrágyát, gyomirtót, rovarirtót, vagy gombaölő vegyszereket. A világ minden táján olyan illóolaj termelőkkel kerestük az együttműködést, akik szintén fontosnak tartják, hogy szeretettel bán-

janak a földdel, a növényekkel és tisztelik a természetet. Ezzel hozzájárulnak ahhoz, hogy a jelenlegi és a következő generációk egy barátságosabb, egészségesebb bolygón éljenek.

Az illóolajok kiválasztásánál számunkra nem a mennyiség, hanem a minőség és a tisztaság a legfontosabb szempont. Hiszünk abban, hogy ez a helyes út.

Ebben a katalógusban nagy gonddal válogatott illóolajokat találnak, melyek többsége közismert, de ritkaság is akad köztük szép számmal. Reméljük, örömmel használják majd őket.

Üdvözlettel:

Dr. Malte Hozzel

Az Oshadhi termékek jellemzői

Bizalom kérdése, hogy kitől vásárolunk illóolajokat. Az Oshadhi termékei kivétel nélkül a lehető legmagasabb színvonalat képviselik és megbízható forrásokból származnak.

100% természetes

Az Oshadhi termékek mind természetesek, vegyszerrel nem kezelték őket. Kizárólag a feltüntetett növények olajait tartalmazzák. Nem estek át fehérítésen, terpénmentesítésen, peroxidáción, nem mesterségesen előállítottak. Az olajokat nem keverjük, hígítjuk, vagy dúsítjuk más olajokkal. Termékeinken feltüntetjük a növények botanikai nevét és kemotípusát. Nem használunk szintetikus adalékokat, parabéneket vagy génmódosított növényeket. Az összetevők túlnyomórésze bio minősítésű és az előállítás során az élelmiszeriparban is használt emulgeálószerket alkalmazunk. Csak természetes illatanyagokat, színezéket vagy tartósítószereket használunk.

Néhány abszolútumok oldhatók alkoholban, édesmandula olajban vagy jojobaolajban, ha cseppfolyós halmazállapotban szeretnénk felhasználni őket.

Állatkísérlet-mentes

Egyetlen összetevőt vagy készterméket sem teszünk állatokon.

Vegán

Az egyetlen általunk használt állati eredetű összetevő a kezeletlen méhviasz, amit bioméhészetből szerzünk be.

Méltányos kereskedelem (Fair trade)

Termelőinket, szállítóinkat megbecsüljük, méltányos díjazásban részesítjük. Fontos számunkra a hosszú távú személyes kapcsolat.

Minőségbiztosítás

Termékeink alapanyagait folyamatosan ellenőrizzük és ellenőriztetjük. Például hivatásos vegyészek által végzett gázkromatográfia-tömegspektroszkópia, illetve független ellenőrző szervezetek (Ecocert/IMO, Ecocontrol, ICEA) segítségével.

Az olyan megvásárolható besorolások, mint „Természetes”, vagy „Fair trade” vagy „Vegán” csak feleslegesen megrágitanák termékeinket. Ezért jelenleg ezeket nem használjuk, és reméljük, vásárlóink megértik döntésünket.

100% természetesség – a kezdetektől

Az Oshadhi illóolajok nagy részét vadon növényekkel rendelkező biotermésztésből származó növényekből vonják ki.

Íme, egy kis segítség a tanúsítványok közti eligazodáshoz:

1. c.org + EG-Organic = tanúsítvánnyal rendelkező biotermésztésből – Ecocert/ IMO (DE-ÖKO-005) tanúsítvány

Műtrágya-, gyomirtószer, rovarirtószer-, gombaölőszer- mentes termék. A lepárlás alacsony nyomáson történt. Az olaj nem lett túlhevítve. A lassú lepárlásnak köszönhetően a legtöbb értékes összetevő megmaradt. Ezen tanúsítvánnyal rendelkező illóolajaink még karakteresebb illattal rendelkeznek, és intenzívebb gyógyító hatásuk.

2. c.org + Org. Raw Mat.: = Eco-control tanúsítvány

Műtrágya-, gyomirtószer- rovarirtószer-, gombaölőszer- mentes termék. A lepárlás alacsony nyomáson történt. Az olaj nem lett túlhevítve. A lassú lepárlásnak köszönhetően a legtöbb értékes összetevő megmaradt. Ezen tanúsítvánnyal rendelkező illóolajaink még karakteresebb illattal rendelkeznek, és intenzívebb gyógyító hatásuk.

3. wc.org + EG-Organic = tanúsítvánnyal rendelkező környezetben vadon élő növényből –

Ecocert/ IMO (DE-ÖKO-005) tanúsítvány

Ezek az olajok olyan növényekből származnak, amelyek természetes élőhelyükön vadon nőnek és a begyűjtésük, a lepárlás a biogazdálkodás szabályainak megfelelően történik. Előállításuk megegyezik a c. org jelzésű olajokéval.

4. wc.org + Org. Raw Mat.: = Eco-control tanúsítvány

Ezek az olajok olyan növényekből származnak, amelyek természetes élőhelyükön vadon nőnek és a begyűjtésük, a lepárlás a biogazdálkodás szabályainak megfelelően történik. Előállításuk megegyezik a c. org jelzésű olajokéval.

5. conv.= hagyományos természetesség

Ezen olajok előállítása általában a termeszto családi vállalkozás hagyományos szabványai szerint történik. A termékeket bevizsgáljuk, de nem módosítjuk. Megfelelnek az általunk elvárt tiszta és kiváló minőségnek.

6. wild = vadon élő növényekből

Ezek az illóolajok olyan vadon élő növényekből származnak, mint például az eukaliptusz, a teafa, vagy az erdei fenyő. Kémiailag nem alkalmaztunk az előállítás során.

7. abs. = abszolútumok

Az abs. jelzésű olajok kiváló minőségű illóolajok, melyeket extrakció során nyerünk.

DE-ÖKO-007

COSMOS ORGANIC

COSMOS NATURAL

Oshadhi

Közel 500 illóolaj, köztük rengeteg ritkaság,
több száz hidrolátum, macerátum,
valamint testápolási cikkek és kozmetikumok

TIMELESS

Eye care oil
37283-5

Oshadhi Timeless is a hydrating and firming eye care treatment that gently nourishes the delicate skin around the eyes while enhancing its natural radiance.

The formula features precious plant oils such as **prickly pear seed oil** and **apricot kernel oil**, which provide deep hydration and strengthen the skin's structure. It is complemented by essential oils of **jasmine, rose, frankincense, sea fennel,** and **chamomile** known for their balancing and regenerative properties.

The delicate, floral jasmine scent adds a sensual and natural touch to the experience.

CO₂-Extracts

CO₂ extraction is a relatively new procedure, which brings new products with new compositions of ingredients. As CO₂ extracts can contain amounts of carrier oil, essential oils, sterols and other plant components, we decided to create this new category. With this we want to highlight the specificity of these products. We have seven further CO₂ extracts which contain mainly essential oil. These will remain in the category of essential oils.

Oshadhi

Natural scents

All Oshadhi perfumes, eau de toilettes, aftershaves, and perfume roll-ons have one thing in common: they are lovingly hand-crafted from 100% natural ingredients and are free of synthetic fragrances, fixatives, or enhancers. High-quality essential oils, organic alcohol, and pure jojoba oil—nothing else! This makes them a perfect fit for your natural lifestyle and high standards.

| | 8400 | Standing Shelf Display 160 | Sales-display with 4 shelves for essential oils, synergies, hydrolates and other Oshadhi products. The display is made of plywood and can be easily assembled in a few minutes. The wooden optics underlines the naturalness of Oshadhi. On the left side up to 3 brochure holders can be installed. Measurements: 166 cm high x 53 cm wide (+ 18 cm for the optional catalogue holders) x 36 cm deep | 230 038 |

Business Terms and Conditions

§ 1 Basic provisions

(1) The following business terms are applicable to all the contracts, which you conclude with us as a supplier (Ayus GmbH). Unless otherwise agreed upon, the inclusion, if necessary, of your own conditions is ruled out.

(2) A 'consumer' in the sense of the following regulations is every natural person who concludes a legal transaction which, to an overwhelming extent, cannot be attributed to either his commercial or independent professional activities. The term 'businessman' refers to every natural person, legal person or legally responsible partnership that concludes a legal transaction in pursuance of his/its independent professional or commercial activity.

§ 2 Conclusion of the contract

(1) The subject-matter of the contract is the selling of products.

(2) Our offers on the website are non-binding and are not a binding offer to conclude a contract.

(3) You can use the online shopping cart system to place a binding offer of purchase (order). Here, the goods meant for purchase are stored in the 'Shopping cart'. You can use the respective button in the navigation bar to call up the "shopping cart" and make changes at any time. After the 'check-out' page has been called up and the respective personal data and payment and shipping conditions have been entered, all the order data is displayed again on the order overview page. Before the order is sent, you can re-check all the data, change it (which can also be done via the internet browser's 'back' function) or cancel the purchase transaction. When the order is placed using the "Ordering with cost liability" button, you are considered to have made a binding offer to us.

(4) The acceptance of the offer (and with it, the conclusion of the contract) takes place immediately after placing the order via a textual confirmation (e.g. email), in which you receive confirmation (order acknowledgement) regarding the execution of the order or the delivery of the products in question. If you have not received any corresponding message within this deadline, you are no longer considered to be bound to your order. Under such circumstances, any services that have already been provided are restored without undue delay.

(5) You are not bound by your enquiries regarding the creation of an offer that have been conveyed to us. We supply you with a textual and binding offer (e.g. via e-mail), which you can accept within a period of 5 days.

(6) The execution of the order and the sending of all the details necessitated by the conclusion of the contract take place via e-mail, in a partially-automated manner. Consequently, you have to ensure that the e-mail address that you have deposited with us is the correct one, and that the receipt of the respective e-mails is guaranteed. In particular, you have to ensure that the respective e-mails are not blocked by a SPAM filter.

§ 3 Right of retention, reservation of proprietary rights

(1) You can only exercise a right of retention if the situation in question involves claims arising from the same contractual relationship.

(2) The goods remain our property until the purchase price is paid in full.

(3) If you are a businessman, the following conditions also apply:

a) We retain ownership of the goods until all the claims arising from the ongoing business relationship have been settled in full. The goods subject to retention of title may not be pledged or transferred by way of security before ownership of the said goods changes hands.

b) You can re-sell the goods within the framework of an orderly transaction. In this regard, you hereby cede all the claims amounting to the magnitude of the billing amount that accrue to you as a result of the re-selling operation to us, and we accept the cession. Furthermore, you are authorised to collect the claim in question. However, insofar as you do not discharge your payment obligations in an orderly fashion, we reserve the right to collect the claim ourselves.

c) In a situation involving the combination and amalgamation of the goods subject to retention of title, we acquire co-ownership of the newly-formed item. This co-ownership corresponds to the ratio that exists between the invoice value of the goods subject to retention of title and the other processed items at the time of processing.

d) If you make a request of this nature, we shall be obligated to release the securities that are due to us, to the extent that the realisable value of our securities exceeds the claim to be secured by more than 10%. We are responsible for selecting the securities to be released.

§ 4 Warranty

(1) The statutory warranty rights are applicable.

(2) As a consumer, you are requested to promptly check the product for completeness, visible defects and transport damage as soon as it is delivered, and promptly disclose your complaints to us and the shipping company in writing. Even if you do not comply with this request, it shall have no effect on your legal warranty claims.

(3) Insofar as you are a business, the following difference applies to the aforementioned warranty regulations:

a) It is understood that the details provided by us and the product description provided by the manufacturer are the only things that represent the properties and condition of the product in question. Other advertisements, blurbs and statements issued by the manufacturer are not considered to be representative of the properties and condition of the said product.

b) If the goods are found to be faulty, we shall reserve the right to repair the goods or deliver replacements. If the defect is not removed, you can demand a reduction in the price or withdraw from the contract at your discretion. The defect removal is applicable after a failed second attempt, unless the circumstances prove otherwise, in particular due to the nature of the object and/or defect or other conditions. In case of repair, we must not bear the additional costs, which arise from the transfer of the item to a place other than the place of fulfilment, as far as the transfer does not correspond to the intended use of the item.

c) The warranty period amounts to a period of one year after delivery of the product. The reduction in time-limit does not apply:

- to damages culpably attributable to us arising from injury to life, limb or health and for other damages caused by wilful intent or gross negligence;
- insofar as we have wilfully concealed the defect or accepted a warranty for

the quality of the goods;

- to goods which are used for a building in accordance with their normal use instructions and whose defects were caused by this;

- for statutory recourse claims, which you have against us in connection with warranty rights.

§ 5 Choice of law, place of fulfilment, jurisdiction

(1) German law shall apply. This choice of law only applies to customers if it does not result in the revocation of the protection guaranteed by the mandatory provisions of the law of the country in which the respective customer's usual place of residence is located (benefit-of-the-doubt principle).

(2) If you are not a consumer, but a businessman, a legal entity under public law or an institutional fund governed by public law, our place of business is the place of jurisdiction as well as the place of fulfilment for all services that follow from the business relationships that exist with us. The same condition applies to situations in which you are not associated with a general place of jurisdiction in Germany or the EU, as well as situations in which the place of residence or the usual place of residence is not known at the time of commencement of proceedings. This has no bearing on the capacity to call upon the court associated with another place of jurisdiction.

(3) The provisions of the UN Convention on Contracts for the International Sale of Goods are explicitly inapplicable.
